Salt Point Corporation Yard  
25050 Highway 1  
Jenner, California

**Notice of Proposed No Further Action related to petroleum hydrocarbon discharge.**  
Comment period ends May 18, 2003.

**Problem Description:** In March of 1992, a waste oil spill was noted during an inspection by the Department of Fire Services. Saturated soil was observed near an area where 55-gallon waste oil drums were being stored.

**Interim Actions Completed:** Obviously impacted soil was excavated and stored in a total of four 55-gallon drums. The drums were subsequently removed and disposed of through proper procedures. An investigation of a near-by underground storage tank release located less than 50 feet from the spill release revealed no significant soil impacts from the tank or the surface waste oil release.

**Proposed Action:** No further action related to this waste oil discharge is proposed.

**Case Closure with no further action will be completed without further notice unless significant public comment is received prior to May 18, 2003.** Please contact Beth Lamb at (707) 576-2669 or [lambb@rb1.swrcb.ca.gov](mailto:lambb@rb1.swrcb.ca.gov) with any questions or comments.
